53.07/25 To discuss parking charges at Flaxpits Lane car park and agree a response to submit to South Gloucestershire Council.

Clerk gave an update on comments that had been received from the local businesses on Flaxpits Lane. All businesses had seen a reduction in revenue, staff are having to park on residential side streets resulting in confrontations with residents and causing traffic problems for drop off and pick up of Winterbourne Academy. Traffic congestion in the area has increased. A few of the businesses advised they may not survive if the charges stay as they are. In addition, comments received that the two free parking spaces and difficult to park in especially with overgrown vegetation. A member of the public has been recording the usage of the car park (appendix A) which shows how little it is being used. It was noted that there has been confusion that people parking in the disabled spaces still have to get a ticket, even though they do not have to pay.

It is considered that the issues caused by the parking charges are not only effecting local businesses and residents but also causing safety problems. The coop have reported an increase in damage to cars and also a lady was knocked over. Due to the increased parking on residential streets, it has become more hazardous for students who cycle to school.

Members noted that the charges themselves appear to be higher than in other Councils.

RESOLVED, it was agreed to contact South Gloucestershire Council highlighting the above and to suggest changes that could help to solve some of the issues being experienced: To have the whole car park as free for one hour, to increase the number of free spaces, to issue parking passes to local businesses and to review the cost of the parking.
